

Maltols

Quality Solutions

Application: Fragrance and flavoring agent

Authorized Distributor

Maltol is a white, crystalline powder having a characteristic caramel-butterscotch odor, suggestive of a fruity-strawberry aroma in dilute solution. Ethyl Maltol is a white, crystalline powder having a cotton-candy odor and a sweet, fruit-like flavor in dilute solution. Maltol is used as a fragrance and flavoring agent. Ethyl Maltol is used as a vehicle and fragrance and flavoring agent. USP can support your development and manufacturing activities on maltol and ethyl maltol and medicines containing maltol and/or ethyl maltol with these existing and upcoming standards.
