* Documents in PF Online are not official and not suitable to demonstrate compliance. They may never become official.

Pharmaceutical Analytical Impurities (PAI products) are released using a process developed by USP's subject matter experts. The release process is based on internal policies, standard operating procedures, and requirements as defined by USP's Quality Management System. USP is an ISO 9001:2015 certified facility. PAI products are different from official USP Reference Standards. PAI products are not required for compendial compliance.

01-Dec-2023. For publications related to **Dabigatran** in PF online after this date, please visit the integrated [USP-NF/PF online](#).
